CHARAL

THE AI AUGMENTED LEARNER CHALLENGE

Webinar · Rapid Prototyping with Lovable

Monday, October 12, 2026 · Online · MICAI 2026

Eugenio Salas Iturriaga

Founder & CEO, Alexandr.ia

Demo Showcase Chair

eugenio@alexandriads.com

Dr. Arturo Gómez Chavez

Founder, CHARAL Challenge

Demo Showcase Chair

arturo.gomez-chavez@explearn.io

alexandr.ia
AI Learning Systems

AGENDA

1. **The challenge in brief** — 5 min
   Mission, tracks and challenge updates
2. **Navigating the website** — 5 min
   Live demo: credits sign-up and the submission portal
3. **Workshop: Rapid Prototyping with Lovable** — 30 min
   Dino Osmanagić, Lovable Ambassador
4. **Q&A: Prototyping with Lovable** — 5–10 min
   Questions for Dino
5. **Q&A: The challenge** — 5–10 min
   Tracks, deliverables, evaluation, timeline

AI Learning Systems

CHALLENGE TRACKS

Build AI systems that **elevate human cognition** instead of acting as a shortcut. Choose one track:

TRACK 1 · AI SYSTEMS FOR REVIEWERS

Tools that help educators, thesis boards and journal reviewers **audit reasoning and synthesis**, not just grade final outputs.

e.g. rubric analysis, questioning engines for grading, LLM-as-a-Judge, reasoning-graph dashboards.

Auditing & Evaluation

TRACK 2 · AI SYSTEMS TO STIMULATE COGNITION

Systems that **challenge learners' thinking in real time** and prevent passive AI reliance by demanding reflection, synthesis and deep reasoning.

e.g. reflective writing assistants, conceptual-mastery co-pilots, Socratic dialogue for research drafting.

Active Learner Engagement

CHALLENGE UPDATES

LOVABLE CREDITS

Lovable

Free **Lovable AI credits** for registered participants. **One code per team.**

Codes are sent **Tue–Wed, Oct 13–14**.

Apply at charal-workshop-ai.com/lovable-credits.html

PUBLICATION AWARD

Top-performing AI systems will be invited to publish an article in **Research in Computing Science** (RCS), the indexed journal of IPN.

This adds to the track winners, Best AI Governance and Best Social Impact.

TIMELINE UPDATE

Oct 12	Lovable workshop (today)
Oct 13–14	Lovable credit codes sent
Oct 31	**Submission deadline**
Nov 1–4	Submission reviews & feedback
Nov 5	**9:00 AM CST, online:** finalists & winners announced; keynote by Dr. Enrique Cortés Rello

HOW PROTOTYPES ARE EVALUATED

PEER-REVIEW CRITERIA

Judges also use each system hands-on, following Alexandr.ia's interaction protocol.

FOUR REQUIRED DELIVERABLES

1. **Live prototype:** a public, working web URL
2. **GitHub repo**: code, architecture, setup instructions
3. **5-min demo video** and a short pitch deck
4. **Governance document** (3–5 page PDF): prompts, guardrails, human-in-the-loop, PII and bias mitigation

Questions?

Q&A: Lovable prototyping

Dino Osmanagić · Lovable Ambassador

Q&A: The challenge
